### Kefauver Goes to Nébraska in Campaign

Omaha, March 21 (#)--Sen. Estes Ketauver (D-Tenn) moved into Nebraska today to make a campaign bid for the state's Democratic preslitential preference yole April 1.

bacing him was the job of catching up with his opporient, Sen. Robert S. Kerr (D-Okla), who has spent most of the past two weeks stump-

Kelauver planned a morning news conference here, then was to

fly to McCook, for a kick-off lunch-

eon speech. Kerr completed his second major campaign tour yesterday and left for Washington, but will return next Tuesday Refauver will leave for Wisconsin Sunday but return March 27 and remain until electian Ume.

Kefauver moved on stage amid increasing indications that write-in votes might lift the state's Repub-Henn presidential preference contest into significance.

Only Harold E. Stassen and Mrs. Mary Kenny, a Lincoln house-wife and stand-in for Gen. Douglas Mac-Arthur, are entered in the GOP popularity contest. Thus Nebraska is a virtual duplicate of the Minnesota situation, where Stassen and a MacArthur-backer also were the only entries.

The huge write-in vote in Minnesota appeared likely to suggest the write-in possibilities in Nebraska also. Nebraska newspapers were giving wide publicity to the fact write-ins are permitted and will be counted.

"If enough Nebraskans understand they have a right to write in a vote for any presidential candidate they favor, the April 1 primary can be highly significant," the Omnha World Herald said editerially.

J. Lee Rankin of Lincoln, Gen. Dwight Eisenhower's Nebraska manager, said there has been much "urging and pushing" for a campaign for write-in votes but no decision has been reached.

Kerr, who has the backing of state Democratic leaders, entered the Nebraska contest as a standin for President Truman, promising to withdraw and support the President should be decide to run again. Kerr has soft-pedaled the Fruman tie-up in recent speeches and has appeared to be campaignng on his own merits.

Kefauver's Nebraska manager is Frank Morrison, McCook attorney who has been at odds with the current party leaders.

### **Tackett to Start** Campaign in May

Washington, March 21 (A)-Rep. Tackett (D-Ark) said today he'll start his active campaign for the Democratic nomination for governor ci Arkansas early in May. Tackett announced his candidacy

last week in Little Rock. He returned to Washington today but told a reporter he expects to go back to Arkansas about Easter. He said he will set up headquarters and get set for a start early in May.
"I'll return to Washington for 'm the house."

gress to accomplish much in the weeks ahead. "There'll be a few major bills but the rest will be polities," he

commented. Tackett said he has "no idea" whether Governor McMath, Democrat and supporter of President Truman, will seek a third twoyear term as governor of Arkansas. Likewisc, he said, he doesn't know whether Attorney General Ike Mur-

ry plans to make the race. "Maybe my announcement will bring some action," he said.

### New Riots Kill **Another in Tunisa**

Tunis, Tunisia, March 21 (/P)-New riots took another life in restless Tunisia last night.

One man was killed and several others injured by a motorcycle policeman who fired into a stone throwing mob which heaved rocks at streetcars.

Police and soldiers made 180 arrests in the Arab section of Tunis. Two rail workers at Sousse, southeast of Tunis, were injured by a grenade thrown into a railroad station. Rail and road bridges were blown up in the area.

The Tunisians are demanding more independence from France. which rules the country under a protectorate. Nearly 100 persons have been killed in rioting since mid-January, when the Tunisians began to use violence to enforce their demands.

would go down in three years. Back in 1947 when the then Secretary of State George Marshall first proposed the Marshall planwhich was only economic help for U. S. allies in Europe-relations with Russia were bad but not so bad as they became later.

Then in 1948 when Congress voted the Marshall Plan money, the State Department thought he plan could be completed in four years. But already in that year relations with Russia had begun to take an alarming turn.

That year the Communists took over Czechoslovakia in a coup that frightened he West. In 1949 this country and itts European allies formed the Atlantic Pact, which was hardly more than a gesture since it was not backed by arms. This country didn't begin its own arming until June, 1950, when the Communists began their adventure in Korea. This was followed by Gen. Eisenhower's departure for Europe in 1951 to whip an Atlantic

Pact army into shape. In 1951 the Marshall Plan ended —at least under that name — and was succeeded by the Mutual Assistance Program, which meant the United States not only would continue to give economic help but

add military help.

The administration said the Marshall Plan had been successful— it was set up to restore Europe economically — but that further help was needed since Europe was turn-ing much of its restored economy unto war production.

The need for the billions going into the being Assistance Program—or at least the amount of money involved—will be argued in There will be Dramatic Tournament for 4-H clubs to be held
in the Lincoln High school gym.
